

THEY SHALL MAKE KNOWN HIS MIGHTY ACTS

Psalms 145:10-12

On November 30th 2010 several wonderful Miracles happened to me, actually four! First one was a removal of a clot in a large artery in the lung on my left side near my heart where I was having pain in the front and back of my chest. Second was a brother who halfway around the world was called by God to pray in earnest during the early morning hours while at the same time I and my wife were enroute to the hospital. The third was a vision given to the same brother of the blocked artery which was only passing a trickle of blood like a gurgling drip hose. And the fourth miracle is the omnipresence of the Lord Jesus Almighty who is able to communicate halfway around the world instantly and do major surgery without hands!

You see, the man who was called by God at 2am his time to pray for me was in India and I in Canada. Our time in Edmonton was 2:30pm, the exact same time he was called. We had just left for the University hospital arriving at 3pm. He had no idea of what was really happening, only that he was drawn into a deep trance-like intercessory prayer. In the trance he saw what looked like a hose used for water that was not flowing. In the spirit he knew he was praying for me because my name kept coming to him.

Before we talked on the phone on Tuesday the 1st of December he thought that there was something blocking the ministry God had called me into. In actuality my life would have stopped if the artery was not opened. When we talked I learned how the hand of God had intervened and healed me. I, my wife and the brother wept sore with thanksgiving and joy praying in the Spirit giving Glory to Jesus for such mercy by sparing my life.

This brother's name is Sammy Reuben, a dear faithful young man full of the Holy Ghost whom Jesus uses very often in the poorer areas of Bangalore India to minister to the needy. He himself is needy with not much more than the clothes on his back, but through this he has learned compassion for those who know not his Lord Jesus Christ, the One who supplies all our needs.

So here we have it. I on my way to the hospital with my wife driving and Sammy praying, God in control! In the emergency area of the hospital the triage doctor took an urgent EKG and a sample of blood. She looked at the readout of the machine and asked if I had ever had a heart attack and I said no. Then she showed the chart and said; "well sir, your chart shows you have had one!" As I pondered her statement I was reminded of when I had laid hands on myself and prayed asking Jesus to remove the affliction from me. I had also asked the Lord to raise up a Saint to pray for me.

They continued their search to zero in on the problem and took chest x-rays. Then I was wheeled into the intensive care area where I waited for test results. In all of this the Lord really kept me from knowing or feeling that I was in a life threatening situation. I did not really know what was going on inside me, but He did. I actually was in a life threatening situation and the tube Brother Sammy saw gurgling is what I felt in my chest all day long on Monday the 29th. Even when I went to bed that night and laid on my side it gurgled on and off as I breathed in and out. I really thought it strange and that perhaps it was the flu or liquid in my lungs, never suspecting it was an artery related problem.

As I lay there the doctor asked me the pain level on a scale of 1 to 10. I said about 1-2 with pain in front and back on the left side of my chest. They gave me some aspirins and some Tylenol. There I waited with the itchy glue tabs all over me, intravenous feed, blood pressure and pulse lines connected, beeping noises and Jesus in control!

I was laying there in peace, Mattie at my side all the time for 7 hours. I slept a few winks in between disturbances but God is faithful, I had perfect peace. ***"Isaiah 26:3 Thou wilt keep him in perfect peace, whose mind is stayed on thee: because he trusteth in thee."***

Finally they came and said we cannot find anything, no enzymes in your blood, no clot forming evidence and even the EKG machine showed a good report. Blood pressure was 133/79 and pulse was 62. So they said we are going to send you for a CT scan to see what is going on in your lungs. While I was having my snooze and Sammy was praying, God was working. A pain like a dull thud at the level, say of 4 happened on my left side in the trauma area. **It must have been the hand of the Lord!!!** For after that, all the pain left and the CT scan showed nothing. Even another blood test after 6 hours of entering the hospital showed no enzymes in the blood.

When the doctor came I told him that God had healed me as I began to tell him of being in the ministry. He said Mr. Strome, we could have used your help next door just a few moments ago. We surely cannot out give the Lord. My prayers have always been that I want to bring Glory to His name little knowing that this would be one of the ways He would choose. Thank you Jesus for another testimony of your love and care.

HE WATCHES OVER ME!
PRAISE THE LORD JESUS!

Written by John Strome
May this testimony be a blessing to all who read it!
